

MOTORISED CONCRETE BUCKET

1.0m³ Capacity | Hydraulic DC Power System

Designed for modern construction sites, this **motorised concrete bucket** delivers precise and efficient concrete discharge using a **hydraulic DC motor system**. Built for durability and ease of operation, it reduces manual handling and improves job site productivity.

	DESCRIPTION
CAPACITY	1.0M3
POWER TYPE	HYDRAULIC DC MOTOR
VOLTAGE	12 / 24V
CONTROL SYSTEM	REMOTE CONTROL
DISCHARGE MECHANISM	HYDRAULIC GATE OPENING
APPLICATION	CONFRETE TRANSPORT & CONTROLLED POURING
LIFTING EYES	4 LEGGED
COUNTRY OF ORIGIN	MALAYSIA

- Controlled discharge gate for precise pouring
- Faster concrete placement, improves work efficiency
- Heavy-duty steel construction for durability
- Available in multiple capacities (e.g. 0.5–1.0 m³)
- Compatible with crane or excavator lifting
- Balanced design for stable lifting and pouring
